

ABHISHEK S ILLUR

Software Engineer

☎ +91-6361962641 ✉ abhisheksillur2003@gmail.com  [Abhishek S Illur](#)

Summary

Software Engineer with strong programming fundamentals and experience in Java, Python, SQL, and software development principles. Skilled in building, debugging, and optimizing applications with a focus on clean, maintainable code. Passionate about solving real-world problems through scalable and efficient software solutions.

Skills

Programming Languages: C, Java, SQL, Python, Data Structures and Algorithms

Tools/Technologies: Visual Studio Code, Full Stack Web Development

Libraries and Frameworks: NumPy, Pandas, Matplotlib, Pytorch, PyGame

Experience

Teaching Assistant Intern

August 2025 – February 2025

Jainemo Pvt. Ltd. at Apna College (Remote)

Tools Used: Leet Code, VS Code

- **Supported 150–200 students** in learning Data Structures and Algorithms using Java through structured doubt-resolution sessions and guided coding practice to improve conceptual understanding.
- Explained core DSA topics including, **arrays, recursion, linked lists, stacks, queues, trees, sorting, and searching algorithms** using practical coding examples and exercises.
- Assisted students in **debugging Java programs**, identifying logical errors, and refining problem-solving approaches to strengthen programming fundamentals.
- Collaborated with the instructional team to provide consistent support, ensuring students were able to apply algorithmic concepts effectively in coding problems.

Projects

QuantLens - Stock Technical Analysis | Python

May 2025 – June 2025

- **Built a Python-based financial data analysis project** to download and process historical stock market data for time-series analysis and visualization.
- Implemented technical indicators including 50-day and 200-day Moving Averages and Relative Strength Index (RSI) to analyze trend direction and market momentum.
- Developed multi-panel candlestick charts using mplfinance and Matplotlib, integrating price action, trading volume, and technical indicators in a single visualization.

DevSpace - Personal Portfolio Website | HTML, CSS, JavaScript

March 2025 – April 2025

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase projects, skills, and experience.
- Implemented responsive design techniques and modern CSS styling to ensure compatibility across multiple screen sizes and devices.
- Added interactive UI components using JavaScript, including dynamic content rendering and smooth navigation behavior.

Certifications

- **Java (Basics) Assessment Certificate – HackerRank (2024):** Certified in Java (Basics) by HackerRank, demonstrating knowledge of core Java programming concepts.
- **CSS Completion Certificate – HackerRank (2024):** Certified in CSS by HackerRank, demonstrating knowledge of web styling and layout design.
- **AI Skill Challenge – Microsoft (2025):** Completed Microsoft AI Skill Challenge, demonstrating understanding of AI fundamentals.

Education

B.E.Computer Science And Engineering

Graduated: 2025

Cambridge Institute of Technology - North Campus, Bangalore

CGPA: 7.4 / 10
